

# MICRO BOOST

WORKSHOP

## PROGRAM & SPEAKER DETAILS

 Lisbon  
14:00

 New York  
09:00

 Germany  
15:00

15:00	Introduction <b>Speaker: Nádia Correia (Allmicroalgae)</b>
15:10	From biobank to pilot-scale cultivation: strain selection and growth optimization of <i>Euglena gracilis</i> and <i>Nannochloropsis</i> sp. <b>Speaker: Luka Supraha (NIVA)</b>
15:30	Scale-up optimisation and biomass production of improved strains <b>Speaker: Gonçalo Espírito Santo (Allmicroalgae)</b>
15:45	Biorefinery of algae biomass into high-value immunostimulatory ingredients <b>Speaker: Pedro Cunha (GreenCoLab)</b>
16:00	Boosting Sole's larvae performance with algae: a look from the ex vivo and in vivo approaches <b>Speaker: Ana Teresa Gonçalves (Sparos)</b>
16:20	Modulatory effects of microalgae derived compounds on European seabass innate immunity <b>Speaker: Benjamin Costas (CIIMAR)</b>
16:40	Inclusion of microalgae compounds in salmon feeds to combat salmon lice infestations <b>Speaker: Andreas Borchel (UiB)</b>
16:55	Environmental impacts of new aquafeed ingredients by Life cycle Assessment (LCA) <b>Speaker: Alexandre Lima (GreenCoLab)</b>
17:05	Conclusions <b>Speaker: Alexandre Rodrigues (Allmicroalgae)</b>
